Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Wednesday 02 Jun 2021

UK Outlook for Thursday 17 Jun 2021 to Thursday 1 Jul 2021:
Confidence is typically low for this period, but high pressure looks to be most likely with generally fine and dry conditions for most. However, the risk of some showers developing through the days is still possible with perhaps cloudier conditions and outbreaks of rain across the far west at times. Temperatures are likely to be average or above.
